

# HIGH-VISCOSITY GRANULATED POLYETHYLENE TEREPHTHALATE OF THE TRADE MARK ClearPET”

Technical Specifications (TU)

TU 2226-004-93705408-2009

## Amendment 1

With the view of improvement of physicochemical properties and unification of requirements to polyethylene terephthalate below amendments have been made In to Technical Specifications (TU 2226-004-93705408-2009) for high-viscosity granulated polyethylene terephthalate of the trade mark “Clear PET”:

1. In clause 1.1 «**Specifications**»

Indicator 2 from Table 1:

Indicator Name	Trade Mark Norm			Test Method
	ClearPET-A	ClearPET-B	ClearPET-V	
2. Characteristic viscosity, dl/g	0,78 – 0,82	0,74 – 0,78	0,82 – 0,86	According to p. 6.4 of the current TU

**to present the new version:**

Indicator Name	Норма для марок			Test Method
	ClearPET-A	ClearPET-B	ClearPET-V	
2. Characteristic viscosity, dl/g	0,80 – 0,84	0,76 – 0,80	0,84 – 0,88	According to p. 6.4 of the current TU

2. In clause 1.1 «**Specifications**» beneath the Table 1 **add the remark:**

Remark: Indicator 7 «Hygiene indexes: aqueous extract smell, aqueous extract aftertaste, color and opacity change of the aqueous extract» from Table 1 should be measured only on customers requirement.
